46

54% of guests reported having
mental illness

We worked hard to improve meals this season - each evening, we welcomed individuals with a crockpot of hot soup and a fresh sandwich.

In the mornings, we offered protein-rich breakfasts including eggs, bagels, trail mix, yogurt, and more—creating a consistent, comforting routine that prioritized health and dignity.

Thank you very much!!!!

Thank you all for your incredible dedication and compassion throughout this No Freeze season. We were able to meet the moment and provide safe shelter, warmth, and dignity to those who needed it.

Every overnight shift, every intake, every meal served, and every moment of connection mattered.

We did it—together.
