

"For God knows that in the day you eat from it your eyes will be opened, and you will be like God, knowing good and evil."

Genesis 3:5

"What is going to be created will effectively be a god. It's not a god in the sense that it will make lightning or cause hurricanes, but if there is something a billion times smarter than the smartest human, what else can you call it?"

- Google engineer

How do I deal with artificial intelligence (AI)
as a Christian?

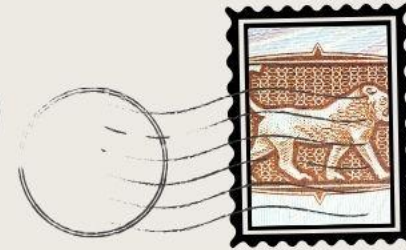

Genesis 1:26–28

26 Then God said, “Let us make man in our image, after our likeness. And let them have dominion over the fish of the sea and over the birds of the heavens and over the livestock and over all the earth and over every creeping thing that creeps on the earth.” 27 So God created man in his own image, in the image of God he created him; male and female he created them. 28 And God blessed them. And God said to them,

“Be fruitful and multiply and fill the earth and subdue it, and have dominion over the fish of the sea and over the birds of the heavens and over every living thing that moves on the earth.”

GREETINGS

FROM BABYLON

What is AI?

Intelligence is ability to accomplish complex goals.

What is AI?

Intelligence is ability to accomplish complex goals.

Artificial intelligence (AI) is non-biological intelligence.

What is AI?

Artificial general intelligence (AGI) is the ability to accomplish any cognitive task at least as well as humans.

What is AI?

Artificial general intelligence (AGI) is the ability to accomplish any cognitive task at least as well as humans.

In October of 2024, Demis Hassabis (CEO, Google DeepMind) predicted that AGI will emerge within ten years and, among other fantastical things, will “**cure all diseases.**” In January, he upgraded this projection to five years.

What is AI?

Superintelligence is the ability to accomplish virtually any goal, including learning, far beyond the human level.

What is AI?

Superintelligence is the ability to accomplish virtually any goal, including learning, far beyond the human level.

“Artificial super intelligence will evolve into Super Wisdom and contribute to the happiness of all humanity.” - Masayoshi Son (CEO, SoftBank)

AI doesn't relate to God

 AI is a curse!

Isaiah 40:18 (ESV)

18 To whom then will you liken God, or what likeness compare with him?

 AI is a curse!

Isaiah 44:17 (ESV)

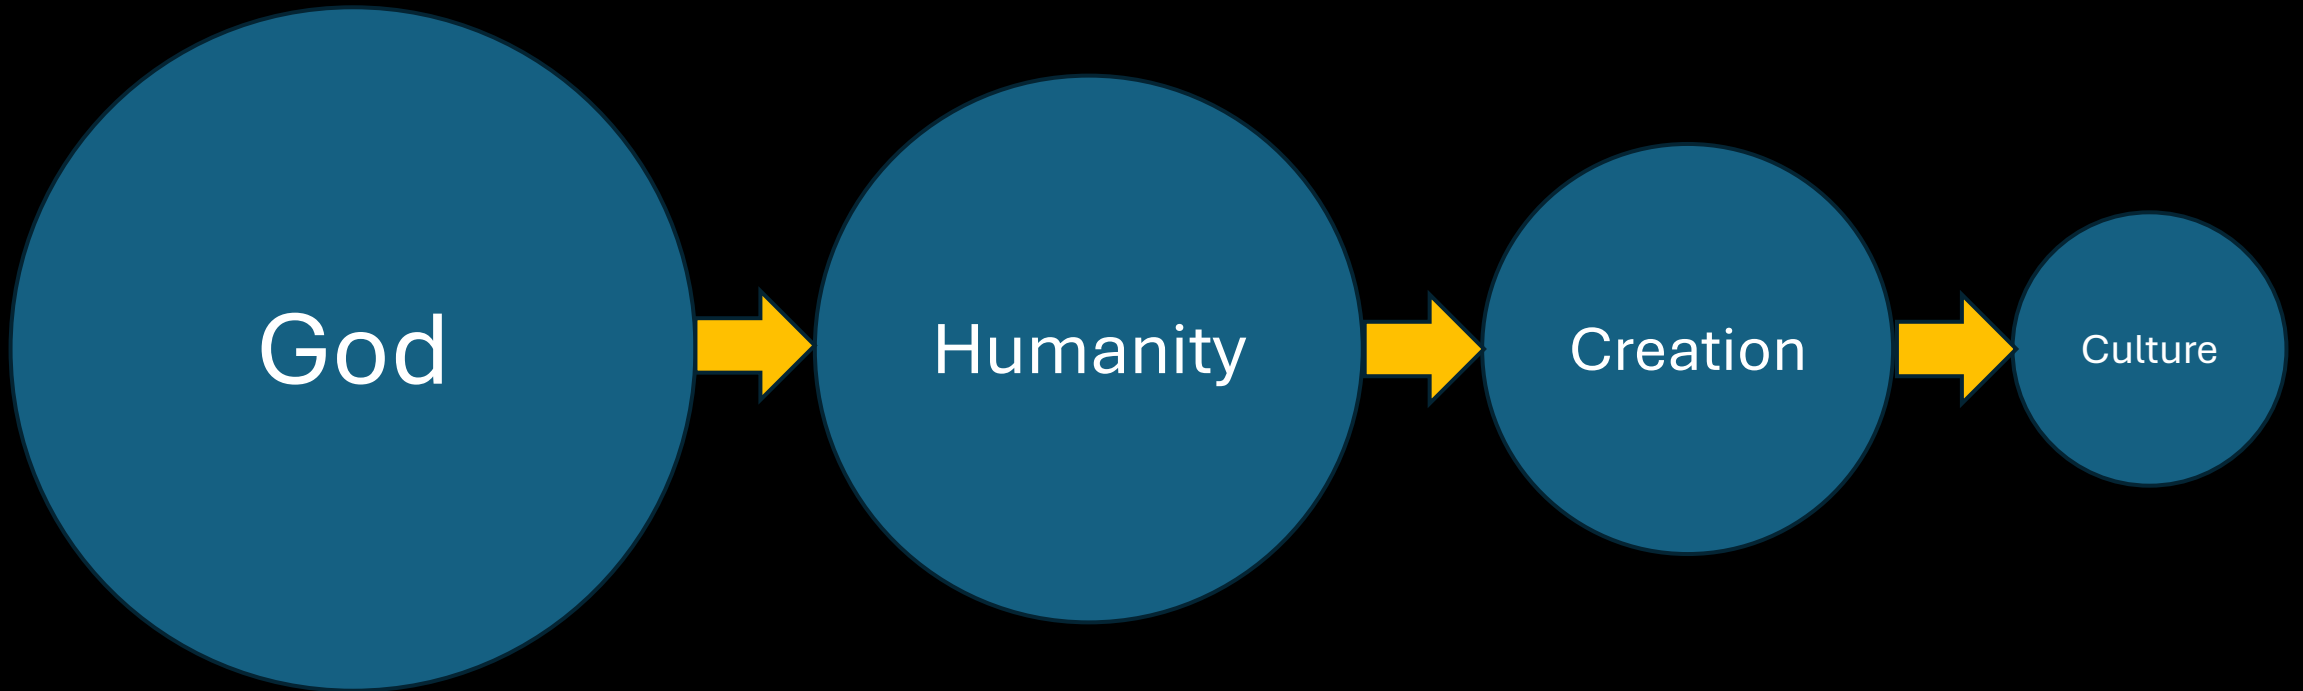

17 And the rest of it he makes into a god, his idol, and falls down to it and worships it. He prays to it and says, “Deliver me, for you are my god!”

 AI is a curse!

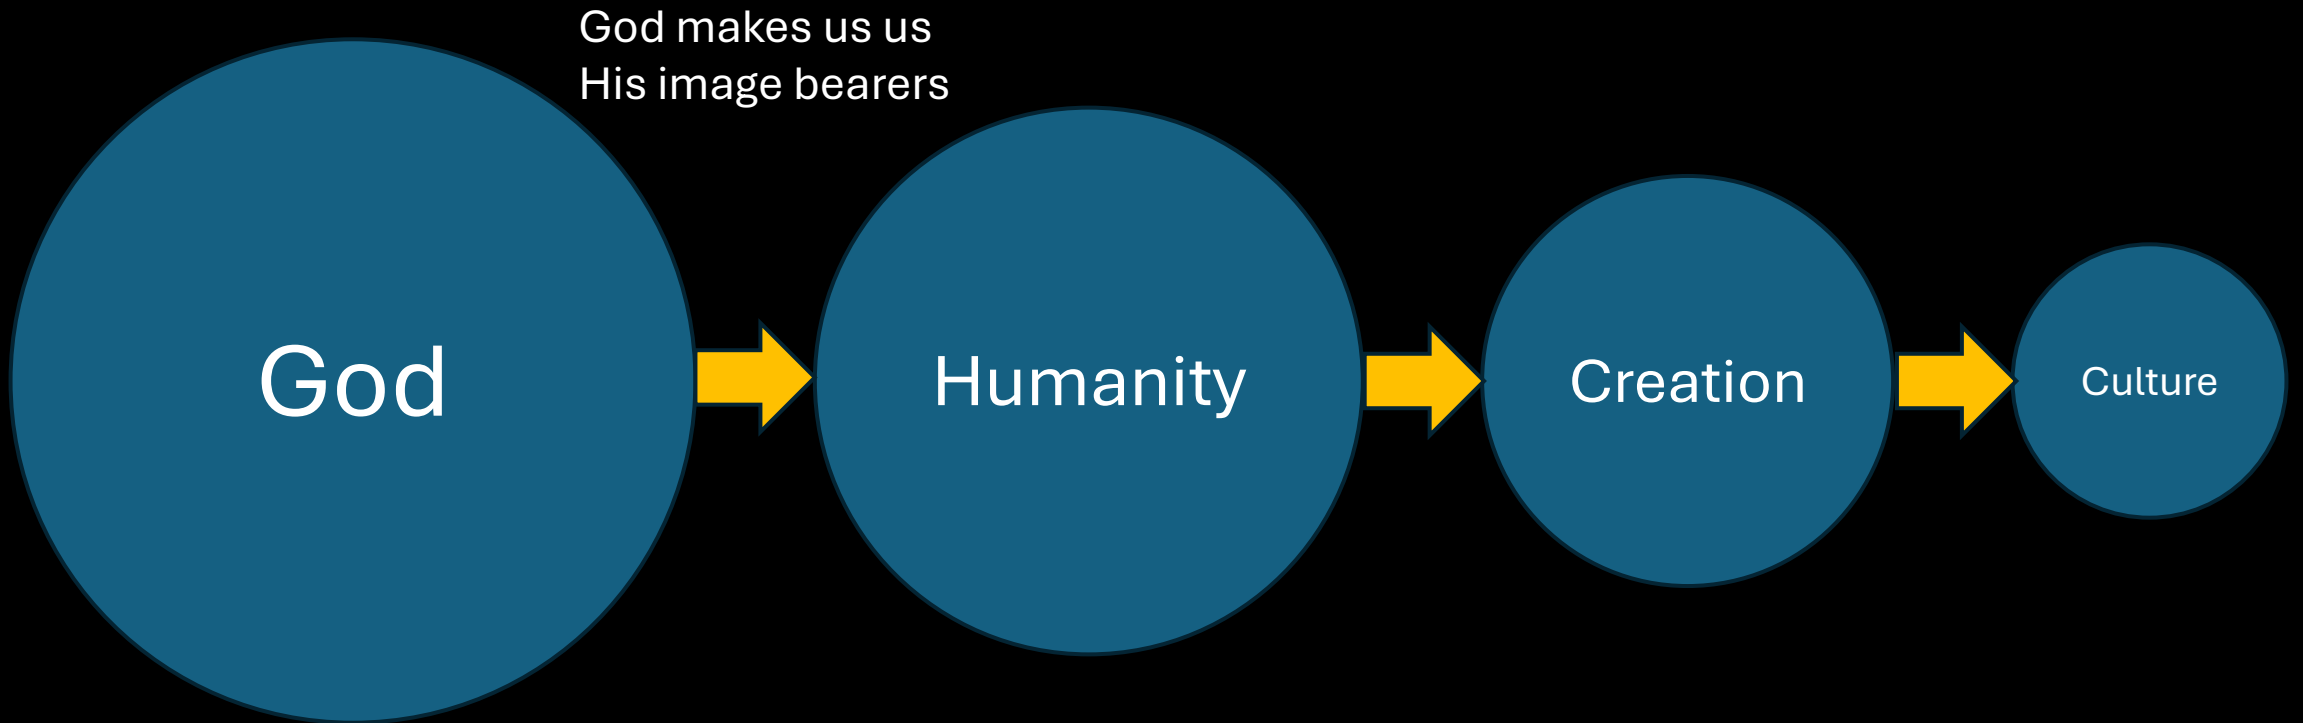

Isaiah 44:18 (ESV)

18 They know not, nor do they discern, for he has shut their eyes, so that they cannot see, and their hearts, so that they cannot understand.

2 Principles in using AI

1. Know the difference between “Human” and “Nonhuman”

2 Principles in using AI

1. Know the difference between “Human” and “Nonhuman”
2. Be ethical in AI usage.

2 Principles in using AI

Generative AI

“refers to a type of artificial intelligence that has the ability to create original content or outputs, such as images, text, music, or even videos.

2 Principles in using AI

Unlike other types of A.I. that are designed to complete specific tasks, generative A.I. is programmed to learn and create on its own, using algorithms and neural networks to generate new and unique outputs based on patterns and data it has learned from existing content.”

Deal with AI in a Christian way
by treating humans like humans,
and machines like machines.
