Building Access Starting Monday August 10:

MBC has installed a new door access control system on our main entry doors as part of our continuous effort to improve safety and security for everyone. With this system, the church can be automatically locked/unlocked on a schedule, it allows temporary restricted user access without issuing a door key, it prevents the building from being inadvertently left open, and it allows us a single quick lockdown of doors for an external threat.

You will no longer be able to access the building with a key on any outer door. Access will be by a PIN code typed in at the door. *CAUTION: do not share your PIN with anyone. The PIN is registered to you and entrance by that PIN is recorded as you entering the building. If someone uses your PIN and there is a problem, you will be held responsible.*

Anyone who needs access to MBC after hours will need to contact the office to receive a PIN code. You can also go online to **Request Building Access** by using the link or scanning the QR code.

<https://monroebiblechurch.breezechms.com/form/ff8e7228>

Be sure to plan ahead! The PIN will be activated for the time you need the facility. All requests will be processed and PIN codes issued by staff during regular office hours.

Primetimers August Events:
