

Highland Park BAPTIST CHURCH

How to Use your HPBC Church App

Once you have downloaded the app from your IOS or Android App Store:

1. You will need to put in our church name or your location to select Highland Park Baptist Church (Bartlesville)
2. You will find the following features available:
 - **HPBC Happenings:** Our Featured Events (most needing you to sign up or register)
 - **Calendar:** The full church calendar list
 - **Sermon Notes:** You can keep your sermon notes here. You are able to fill in the blanks and there are also spaces for you to add your own notes. Then you can save the notes there on the app to go back and refer to at any time. And you may also email the notes to yourself if you wanted to print them off possibly or save them somewhere else.
 - **Prayer Requests (Prayer Wall):** You can post your prayer requests here. All prayer requests will need to be approved by the church office prior to being visible. You can also interact with the posted requests by clicking on the Commit to Pray which lets our church family know that others are praying. In addition, you can share your comments and encouragement to each post. This is also a good place for the person making the request to share updates.
 - **Sermons:** Here you can view our church Sunday Worship Services.

Bottom Tabs: Home | Prayer Wall | Bible | Give | More

MORE TAB:

HPBC Groups: Currently the Groups available to join are our Community Groups and Rooted Moms. You can select your Group to join and it will ask for your name and email.

We will be adding additional groups going forward. Groups provide a great way to stay connected with your Community Group, bible study, etc. within the church app and not having to track down numbers for texting groups etc.

*If you are a group leader and would like us to set up your group, please contact the office

Additional links are available to Sermons & Classes for both video and audio

NOTIFICATIONS:

Individuals can select notifications like you would on any phone app. We will occasionally use the notification option to make church members aware of important updates. An example would be for the cancellation of a service or event. We will use this option sparingly so encourage members not to turn off notifications completely.
