

How to Move Like Jesus

John 2:11,12

When Jesus launched his ministry at a wedding feast in Cana, his first act was to turn water into wine at the request of his mother. When he accomplished this he left for Capernaum and stayed there a few days.

When he left he took the disciples with him. When he begins to move in your life you may be traveling solo or you may have cohorts.

In Capernaum he begins a new mission in order that others could be blessed. Capernaum was a place on the waterways. This was a village of comfort, but they were living in darkness. Jesus is moving physically, but he is also moving spiritually. He is bringing people into the light.

Not only did the disciples accompany him, but his mother and brothers also. Some of his brothers did not believe in him at that time, but Jesus still allowed them to witness his mission.

Capernaum was a point of entry and a point of exit because when he finished there he left and went to Jerusalem.. Where is God calling you to move from?

Do you have your own exit strategy or are you flowing with Jesus? Don't make a move before your time, but when he tells you to move, you've got to move.
