FEDERATED CHURCH

NOVEMBER 2026 NEWSLETTER

Hello Federated Family,

We are moving into the month of November and that easily should remind us to be thankful. It is easy to get caught up thinking of all the difficulties, hardships and insurmountable obstacles facing us. Someone once said, and science is now backing it up, that gratitude and anxiety cannot simultaneously occupy your brain. You can have one or the other. You must choose between gratitude and anxiety or thankfulness and worry. Please spend time this month dwelling on all the blessings that God has granted to you. I bet you find that your mood and overall outlook have improved.

One thing I am thankful for is the scripture. It has been a huge blessing in my life. When I was thirteen years old, I was having a conversation with a friend from church, and he was talking about how he read the bible every day and spent time in prayer. I could tell he had a much closer relationship with God than I did. He knew a lot about the scripture, and I felt that I had a lack of knowledge and a lack of the closeness that he achieved. We both attended the same church and Wednesday night Bible study, so I knew the depth of his closeness to God came from the extra things he was doing outside of church. These were namely reading the word and praying on his own. I don't know if it was my competitive nature or just jealousy of His closeness with God, but it was at that point I decided to begin reading the Bible myself. I began to read the Bible, I read a chapter each day, not worrying if I understood everything but instead focusing on continuously reading it. Now I am over thirty years down the road, having read the Bible cover to cover many times. I always find things I didn't know, and I find that God often shows me things I need to work on in my own life, through His living and active word. I highly recommend reading the Bible every day. You will be blessed.

The Scripture, the Holy Bible, the Word of God is an amazing book. It is composed of 66 smaller books that are penned by different men from across history. The timeline ranges from the beginning of the world and going all the way through the events of the start of the early church all before 100 A.D. Now there are still many prophecies that extend out unfulfilled, such as those that are showcased in John's vision in the book of Revelation. These refer to events at the end of time that have not happened yet. In essence the Bible then covers humanity from start to finish.

The 66 books themselves cover a variety of genres. There are books on history such as 1 and 2 Kings, the Gospels and the book of Acts. There are books of the law of the nation of Israel like Numbers, Leviticus and Deuteronomy. There are books of poetry and wisdom like Proverbs and Psalms. Also, it contains books of prophecy like Isaiah, Habakkuk and Revelation. Paul and Peter are among those who wrote Epistles, which are informative letters that can encourage the church as well as correct some of the things that are happening in the early church.

We are devoted to:
Worship • Scripture • Prayer • Sharing Meals • Caring for Others
Acts 2:42-47

A word from Pastor Adam (continued...)

With all these different authors, different styles and different time periods, people have often gotten caught up in the human aspect of the writings. The sheer enormity of words causes people to think that there must be contradictions. After all, how can so many people keep theological continuity? This argument, and other similar arguments, dismiss God's involvement in the process. The Holy Spirit has inspired each writer to cover the subject matter given in the way necessary to convey the message that we need. No other book is so full of relevant teaching, and it is still relevant thousands of years later. Just think of the billions of people who have interacted with the scriptures over its history, not to mention those untold numbers who will relate to it in the future.

At Federated we believe this about God's word (it's from our beliefs section on our website), "The Bible, as written in the original languages, is God's word (2 Timothy 3:16) true and without error (John 17:17). The Bible is standard for all our beliefs and practices. We are to follow the Bible without adding or subtracting from it (Deuteronomy 4:2). The Bible is divine in nature, written by human authors under the guidance of the Holy Spirt. (2 Peter 1:20-21) The Bible is eternal. (Isaiah 40:8)"

What a book! The incredible nature of it is astounding. It is a feat that only God could accomplish. The archaeological records support it as the most document ancient book in history. No other book is even close. It is the best-selling book of all time selling at least 3 billion more estimated copies than its nearest competitor. Documented, preached, talked about and dissected in every church, every Sunday all over the world. Incredible!

Let us not forget to mention the motive behind it all. God was not required to put this Holy Book together. Yet we have it. God did not do this because of any other reason but because of the love and care He has for you, me and all of humanity. He has used this book to make His story known through the various ages of history. He will continue to make His story known through the future. He wants us all, past, present and future, to know how much He loves us. The great news and the central theme of the Gospel is this, "While we were yet sinners, Christ died for us." (Romans 5:8). Our sin made us enemies of God and yet in His patience, forbearance and love, He sent Jesus the Christ to die in our place. That is love. Similar messages of love are written all throughout the pages of this wonderful book. It is just there for the reading.

Please, if anything, pick up your Bible and read a chapter. Pick up the story about the greatest love ever shown. Get to know the God that we serve as you read the pages of His book. It will change your life as I know mine has been changed. – Pastor Adam
